

CITADEL OFFERS **WIRE HARNESS** CAPABILITIES

Citadel Completions is based at Chennault International Airport in Lake Charles, Louisiana, USA. We employ a state-of-the-art wire harness shop in our sizable facilities, capable of managing multiple avionics modification projects.

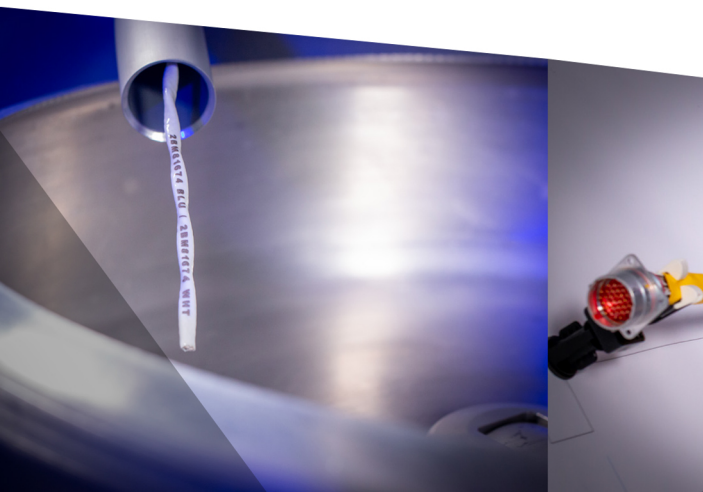

With over 180 years of combined experience, Citadel's wire harness team will successfully support all of your project needs. In addition to our luxury outfitting operations, Citadel is now proud to offer a state-of-the-art wire harness production capability. This service is available for modifications of all sizes, and can quickly be custom adapted to your specific needs and project requirements.

Our ultra-modern facility boasts:

- **Two wire marking machines with 28-gauge to 4-gauge wire capability**
- **Twisted insulated multicolor pairs**
- **Custom heat shrink labels**
- **Standard multimeter testing for harness continuity**
- **Mod kit production and installation**
- **Fabricate smaller harnesses utilizing coordinate-correct engineering documentation projected on our 4'x4' electronic build monitors**
- **Fabricate larger harnesses on our 70' long wire loom boards utilizing coordinate-correct engineering documentation**
