FOR IMMEDIATE RELEASE

Citadel Completions Appoints Neil J. Boyle as SVP of Operations and General Manager

LAKE CHARLES, LA., January 23, 2023 — Citadel Completions is delighted to announce the appointment of Neil J. Boyle as its SVP of Operations and General Manager, effective March 1, 2023. In this role, Mr. Boyle is responsible for leading and overseeing Citadel Completions. In his new position, Mr. Boyle will be accountable for the successful execution and delivery of V/VIP Completions projects while providing leadership and direction for all aspects of Completions and MRO programs, reporting directly to the family ownership group.

"Citadel has made tremendous strides in the industry over the past few years. There is a strong demand for V/VIP services in the U.S. and globally, and with the family's vision and support, harnessed with my leadership, Citadel will set its sights on further growth for 2023 and beyond," said Neil Boyle.

Mr. Boyle is a highly experienced and respected figure in the aviation industry. He recently retired from Jet Aviation, headquartered in Basel, Switzerland, as their SVP & General Manager - Basel Operations. During his time there, he was responsible for the operations and strategic execution of completions, refurbishments, upgrades, repair, and maintenance of various aircraft types, such as Airbus and Boeing business/corporate jets and large cabin models. His extensive knowledge spans multiple areas within aviation and regulatory compliance adherence to safety and quality requirements across all projects. Before his Jet Aviation assignment, Mr. Boyle worked at Gulfstream Aerospace Corporation, headquartered in Savannah, Georgia, General Dynamic's other aviation segment. At Gulfstream, Neil worked within the production and operations organization dedicated to G450 & G550 green aircraft production. Gulfstream hired Neil after he retired from the United States Air Force, where he began his career as a T-38A mechanic and retired 20 years later as an F-15E Fighter Squadrons production superintendent, serving in multiple countries worldwide. Neil holds a Bachelor of Science degree in Professional Aeronautics, a minor in Aerospace/Aviation safety, and an Associate degree in Aviation Maintenance Technology. Neil is certified in Lean Six Sigma (BMGi) and lean manufacturing and holds an FAA Airframe and Powerplant license. With four decades of experience in aircraft maintenance, business aviation, and completions centers, he brings a wealth of knowledge and expertise under his belt, and he will undoubtedly be an invaluable asset to our team.
